TCR at TTU: The Perfect Blend of Theory and Praxis

On-site students can take advantage of our state-of-the-art research labs for user experience, media, digital humanities, and podcasting, allowing them to hone industry-friendly skills and produce cutting-edge practical and theoretical research. Online students receive equal opportunities to learn and use industry-standard technologies to generate high-impact studies. To date, TCR labs and their faculty and graduate students have produced numerous publications, multiple patents, and hundreds of thousands of dollars in research support.
